### BECOMING A BIOHACKER

You need to understand the structure of the mitochondria and some important basics to be able to effectively “hack” them. Some of the most important basics are: • Mitochondria is the location of both the Krebs cycle and Electron Transport Chain (ETC) which use the oxygen we breathe and food we eat to make energy molecules called ATP. • Some of the electrons produced in the ...

Chapter 2 Review of Forces and Moments - Brown University

2.1.4 Classification of forces: External forces, constraint forces and internal forces. When analyzing forces in a structure or machine, it is conventional to classify forces as external forces; constraint forces or internal forces. External forces arise from interaction between the system of interest and its surroundings. Examples of external forces include gravitational forces; lift or ...
