LIFE 1966-11-25 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use.

Grundrechtsschutz im Unionsrecht zwischen Subsidiarität und Integration Benedikt Pirker 2018-04-17 Der Autor untersucht den Umfang des Anwendungsbereichs der Unionsgrundrechte gegenüber den Mitgliedstaaten. Er schafft eine neuartige, umfassende Typologie der Konstellationen, in denen die Mitgliedstaaten aufgrund ihres Handelns im Bereich des Unionsrechts an die Unionsgrundrechte gebunden sind. Zu diesem Zweck werden Lehren aus Erfahrungen in föderalstaatlichen Grundrechtssystemen (Deutschland, USA und Schweiz) gezogen, Interaktionen zwischen dem Anwendungsbereich des Unionsrechts und den Unionsgrundrechten untersucht und die gesamte einschlägige Rechtsprechung des EuGH in ein kohärentes System eingeordnet. Mit einigen Ausnahmen erweist sich die Rechtsprechung als weitgehend überzeugend begründet. Benedikt Pirker forscht im Europäischen Verfassungsrecht, Binnenmarktrecht und Wirtschaftsvölkerrecht.

Miracle At Philadelphia Catherine Drinker Bowen 1986-09-30 A classic history of the Federal Convention at Philadelphia in 1787, the stormy, dramatic session that produced the most enduring of political documents: the Constitution of the United States. From Catherine Drinker Bowen, noted American biographer and National Book Award winner, comes the canonical account of the Constitutional Convention recommended as "required reading for every American." Looked at straight from the records, the Federal Convention is startlingly fresh and new, and Mrs. Bowen evokes it as if the reader were actually there, mingling with the delegates, hearing their arguments, witnessing a dramatic moment in history. Here is the fascinating record of the hot, sultry summer months of debate and decision when ideas clashed and tempers flared. Here is the country as it was then, described by contemporaries, by Berkshire farmers in Massachusetts, by Patrick Henry's Kentucky allies, by French and English travelers. Here, too, are the offstage voices--Thomas Jefferson and Tom Paine and John Adams from Europe. In all, fifty-five men attended; and in spite of the heat, in spite of clashing interests--the big states against the little, the slave states against the anti-slave states--in tension and anxiety that mounted week after week, they wrote out a working plan of government and put their signatures to it.

Cultural Landscape Report for Independence Square 1997

Moments in History II Mark R. Brewer 2022-03-16 Moments in History II is similar in format to Moments in History, but each book stands alone in that one does not have to read one in order to enjoy the other. They each contain chapters that examine a historical event and then look at the life of the individual at the center of that event. These people are sometimes famous, sometimes obscure, sometimes heroic, and sometimes scoundrels--but they are always interesting.

The Constitution and Founding of America John M. Dunn 2007-08-10 The Constitution is one of the most studied topics in education, but this book, with sidebars, maps, illustrations, fast facts, and a compelling narrative make this topic seem brand new. Readers will learn interesting facts and have a new appreciation of the work that went into creating a new nation.

We the People 1992

An Introduction to the U.S. Congress Charles B. Cushman 2014-12-18 What does Congress do? How does it do it? Why is it such a complicated institution? This concise primer offers students and general readers a brief and systematic introduction to Congress and the role it plays in the US political system. Drawing on his experience as a former Congressional staff member, the author explores the different political natures of the House and Senate, examines Congress's interaction with other branches of the Federal government, and looks ahead to the domestic and foreign challenges that are likely to drive the Congressional agenda for decades to come. The book provides revealing insights into the sometimes-contradictory Congressional responsibilities of representation and lawmaking; oversight and appropriation; and managing and organizing the government. It includes a case study (on the formation of the Department of Homeland Security) that sheds light on Congress's often-complicated procedures. The book also includes boxed features on Congressional action - highlighting such topics as file sharing and student loans - that show students how Congress's work affects their lives. Chapter-ending lists of web resources add to the book's usefulness.

Baptism by Fire Mark K. Updegrave 2009-01-06 Americans have long been defined by how they face adversity. This is perhaps nowhere more evident than in how the nation's chief executive has tackled myriad issues upon entering the White House. The ways that U.S. presidents handle the vast responsibilities of the Oval Office determine the fate of the nation---and, in many cases, the fate of the world. In this fascinating narrative, presidential historian Mark Updegrave looks at eight U.S. presidents who inherited unprecedented crises

immediately upon assuming the reigns of power. George Washington led a fragile and fledgling nation while defining the very role of the presidency. When Thomas Jefferson entered the White House, he faced a nation bitterly divided by a two-party schism far more severe than anything encountered today. John Tyler stepped into the office of the presidency during the constitutional crisis left by the first death of a sitting president. Abraham Lincoln inherited a divided nation on the brink of war. Franklin D. Roosevelt sought to quell America's fears during the depths of the Great Depression. His successor, Harry S. Truman, was sworn in as commander in chief at the close of World War II, and John F. Kennedy stepped into the increasingly heated atmosphere of the cold war. In the wake of Watergate, the first unelected president, Gerald R. Ford, aimed to end America's "long national nightmare." As the forty-fourth president takes office, Updegrave presents a timely look at these chief executives and the challenges they faced. In examining the ways in which presidents have addressed crises, *Baptism by Fire* illustrates the importance of character in leadership—and in the resilience of America itself.

State Formations John L. Brooke 2018-03-29 Featuring a sweeping array of essays from scholars of state formation and development, this book presents an overview of approaches to studying the history of the state. Focusing on the question of state formation, this volume takes a particular look at the beginnings, structures, and constant reforming of state power. Not only do the contributors draw upon both modernist and postmodernist theoretical perspectives, they also address the topic from a global standpoint, examining states from all areas of the world. In their diverse and thorough exploration of state building, the authors cross the theoretical, geographic, and chronological boundaries that traditionally shape this field in order to rethink the customary macro and micro approaches to the study of state building and make the case for global histories of both pre-modern and modern state formations.

The Story of the Constitution Leslie Beckett 2016-12-15 Many misconceptions about the U.S. Constitution are spread through the contemporary media, leading to confusion about the way our government functions. Learning about this important document gives readers the tools they need to verify the truthfulness of news items and decide what stance they hold on proposed changes to our nation's laws. In-depth sidebars and quotes from primary sources provide further insight into the creation of the Constitution and its modern-day consequences.

The Politics of Knowledge Richard K. Laird 2019-05-03 This book restores the credibility of politics with the basics of human behavior and social science. It does this by discussing how to retain the positive relationship between learnability and livability.

Miracle at Philadelphia. The Story of the Constitutional Convention, May to September 1787. Illustrated Catherine Drinker Bowen 1967
American Holy Days Boardman W. Kathan 2017-09-08 In times of stress and conflict the celebration of patriotic holidays can bring us together. These ten chapters examine the traditional national holidays of the United States of America—plus Flag Day and Constitution Day—by presenting the persons and events they commemorate, which have shaped American history and identity. In addition, Lincoln's birthday—never proclaimed a national holiday—is considered in an appendix. This book restores the original meaning of these celebrations and looks closely at their development in American history, seeking to inspire renewed ways of celebration, commemoration, and observance. It is an aid for recalling our history, reclaiming our values and traditions, and restoring a sense of community. Each chapter looks at the many books and research written about the events commemorated by these holidays, showing their relevance for today, and their spiritual or religious dimensions. Although the United States of America was not founded as a "Christian nation" on biblical principles, people throughout American history have perceived divine guidance—or what George Washington called "Providential interposition." This book is for the general public, members of patriotic organizations and associations, and as a resource book for schools and religious institutions.

ABA Journal 1987-05-01 The ABA Journal serves the legal profession. Qualified recipients are lawyers and judges, law students, law librarians and associate members of the American Bar Association.

Who Wrote the U.S. Constitution? Candice Ransom 2010-08-01 Examines the facts of the 1787 convention and the history of the Constitution of the United States.

Shipwrecks, Sea Raiders, and Maritime Disasters Along the Delmarva Coast, 1632–2004 Donald G. Shomette 2007-12-17 A maritime history of the Delmarva Peninsula's Atlantic coast describes twenty-five disasters that have occurred in the area between the seventeenth century and the present day, recounting the 1750 loss of a Spanish treasure fleet, the Revolutionary War blockade of the Delaware, the 1933 hurricane, Confederate raids during the Civil War, and the Nazi U-boat offensive during World War II.

Fracturing the Founding John E. Finn 2019-03-15 Many in the radical right, including the Tea Party, the militia movement, the Alt-right, Christian nationalists, the Oath Keepers, neo-Nazis, and a host of others, brand themselves as constitutional patriots. In this book, John E. Finn argues that these professions of constitutional devotion serve an important function in mainstreaming the radical right's ideological and policy agenda: to camouflage its racism, bigotry, and sexism to appeal to a broader audience.

Constituent Assemblies Patrick Fafard 1991-01-01

Die Verfassung vor dem Richterstuhl Jürgen Heideking 2014-10-09

Election Day Kate Kelly 2008-05 "Election Day" has an interesting and complex heritage that combines the history of our voting practices and suffrage laws with the very wonderful story of how Americans have celebrated the day. Peppered with lively anecdotes and rich with the results of extensive research, "Election Day" makes entertaining reading for the armchair reader and will be a much consulted sourcebook for American history buffs and historians. The book intertwines presidential campaign history with a social and cultural history of the day as it depicts election changes throughout the past 250 years. There are entertaining anecdotes of: How voters throughout the years have voted early and often. How soldiers first got the right to vote from the battlefield. How Times Square in its heyday prepared for election eve. The role of the electronic media in modern election days. As the first popular history of our democratic process, "Election Day" takes the reader from oral voting during the colonial period right through to the present day use of optically scanned ballots. Readers accustomed to thinking of our autumn elections as orderly, well-supervised events will discover that boisterousness, fraudulence, hard drinking, and rioting have often marked the holiday in the past.

Miracle at Philadelphia Catherine Drinker Bowen 1986 This book is a history of the Federal Convention in Philadelphia that resulted in the Constitution of the United States. A review of the events and personalities surrounding the Constitutional Convention of 1787 concluding with the debate and the final product.

Miracle at Philadelphia Catherine Drinker Bowen 1966

Parallel Lives Karl Baughman 2022-06-01 This book compares selected Romans of the late Republic with American Founders in the style of Plutarch, encouraging readers to rethink how we view heroes and villains and their conceptions of republicanism. Through entertaining yet informative short comparisons, this volume demonstrates the humanity of heroes and villains from different times and places through their often idiosyncratic similarities and differences. Readers gain not only a fuller understanding of the late Roman and early American Republics and their leaders but also an appreciation for comparative biography in its ability to make connections across the human experience. The book provides a way to connect two different areas of study, focusing on how republicanism shaped both Romans and American Founders and providing a previously unexplored contribution to a growing trend of broadening historical exposure. In doing so, Baughman and Poston demonstrate the continued need for connecting different fields of history while also helping students understand their connection to the ancient past. This book is suitable for students and scholars interested in the late Roman and the early American Republics and also appeals to readers of varied interests across historical times and places, particularly those studying the connections between the classical past and modern world.

Prologue 1993

Decision in Philadelphia Christopher Collier 2012-05-01 Fifty-five men met in Philadelphia in 1787 to write a document that would create a country and change a world: the Constitution. Here is a remarkable rendering of that fateful time, told with humanity and humor.

Decision in Philadelphia is the best popular history of the Constitutional Convention; in it, the life and times of eighteenth century America not only come alive, but the very human qualities of the men who framed the document are brought provocatively into focus—casting many of the Founding Fathers in a new light. A celebration of how and why our Constitution came into being, Decision in Philadelphia is also a testament of the American spirit at its finest.

Miracle at Philadelphia : the Story of the Constitutional Convention May to September 1787/ Catherine Drinker Bowen ; with a New Introduction by Henry Steele Commager ; Illustrations for this Edition by Warren Chappell Catherine Drinker Bowen 1986

Getting Things Done in Washington Joseph H. Boyett Ph.D. 2011-04-08 Boyett has written a book that will inspire you, lift your spirits, renew your faith in what progressives can accomplish, and show you a way forward. Getting Things Done in Washington tells the exciting stories of six great moments of progressive legislative history and the people who made them happen: James Madison and the founding fathers struggle to expand the power of the federal government, The Ladies of Beekman Hill, George Wiley and the struggle for pure food and drugs, Wilbur Mills and the struggle for universal health insurance, Robert Wagner and the struggle for the right of labor to organize, John Sherman and the struggle to rein in and regulate big business, and Lyndon Johnson and the struggle for civil rights legislation. Boyett describes what it was like to live in America before progressives secured these historic pieces of legislation and how these legislative achievements changed the lives of every American. He introduces you to the fascinating men and women who led the efforts to pass this legislation and shows us how to defeat conservatives and once again get progressive things done in Washington. Getting Things Done in Washington is vivid and exciting history. It will inspire you to work even harder for progressive causes. Most importantly, it will give you the tools to begin getting things done in Washington.

Public Administration and Society Richard C Box 2014-12-17 For instructors who want to expose their students to the social, political, and historical context of the practice of public administration, this book provides a unique approach to the introductory PA course. The author's own text is skilfully interwoven with a collection of seminal readings and documents that illuminate the key issues of past and present for public service professionals in a democratic society. More than an overview of public administration, Public Administration and Society offers students a broad perspective on the American Founding Era, the relationship of citizens to government, and how the structure of government reflects societal values. The premise of the book is that understanding the societal context is important to the success of the practitioner and to the practitioner's role as a responsible agent of change in a democratic society. Introductory essays and readings offer students perspectives on five important thematic areas in public administration: the Founding-Era debate over the size and scope of government, the relationship of the community to the individual, public organizations and policy making, values and public administration, and the role of the public service practitioner in a democratic society. This new edition of features five new readings, and, based on input from adopters, an entirely new section on public policy making (Part IV: Public Organizations and Policy). The author's part-opening sections have all been extensively revised and updated.
