Philip Roth's Postmodern American Romance Jane Statlander 2011 The central thesis of this book is that Philip Roth's work is most accurately viewed as postmodernist American Historical Romance, rather than marginalized as Jewish-American. Four works are analyzed in relation to this thesis and to the specific idea that Roth's contribution is entirely within mainstream American literature and culture. Emphasizing the importance and influence of Hebrew Scripture, the author demonstrates that, paradoxically, Roth's Jewishness locates him squarely within the canon of (a Hebraic) America and its letters.

The Constitution of the Psychoanalytic Clinic Christian Dunker 2018-03-21 This book provides a detailed examination of the historical roots of psychoanalysis from ancient Greece to the late nineteenth century, focusing on social practices that were related to the founders of psychoanalytic theory and maintained within contemporary treatment. Alongside the reconstruction of an evolutionary accumulation of healing practices, the book includes linked discussions of current issues pertaining to psychoanalytic treatment and its working structure as elaborated by Freud and Lacan. There are vital political consequences for psychoanalytic practice - here articulated with an acknowledgement of these practical derivations of early pre-psychoanalytic treatments of the soul. The book demonstrates that these are neither mere techniques nor concepts of the world and the human subject, but they concern the way the problem of power is articulated. The historical establishment of psychoanalytical practice becomes legible through analysis of the traces of the elements of a political ontology, an account of the roots of those traces and the elaboration of the conceptual structure of psychoanalysis as theory and treatment, a praxis which maintains its own distinctive identity.

Oedipus Rex in the Genomic Era Yulia Kovas 2021-10-30 This book explores the answers to fundamental questions about the human mind and human behaviour with the help of two ancient texts. The first is Oedipus Rex (Oedipus Tyrannus) by Sophocles, written in the 5th century BCE. The second is human DNA, with its origins around 4 billion years ago, and continuously revised by chance and evolution. With Sophocles as a guide, the authors take a journey into the Genomic era, an age marked by ever-expanding insights into the human genome. Over the course of this journey, the book explores themes of free will, fate, and chance; prediction, misinterpretation, and the burden that comes with knowledge of the future; self-fulfilling and self-defeating prophecies; the forces that contribute to similarities and differences among people; roots and lineage; and the judgement of oneself and others. Using Oedipus Rex as its lens, this novel work provides an engaging overview of behavioural genetics that demonstrates its relevance across the humanities and the social and life sciences. It will appeal in particular to students and scholars of genetics, education, psychology, sociology, and law.

An Anthropology of Puzzles Marcel Danesi 2018-12-13 An Anthropology of Puzzles argues that the human brain is a "puzzling organ" which allows humans to literally solve their own problems of existence through puzzle format. Noting the presence of puzzles everywhere in everyday life, Marcel Danesi looks at puzzles in society since the dawn of history, showing how their presence has guided large sections of human history, from discoveries in mathematics to disquisitions in philosophy. Danesi examines the cognitive processes that are involved in puzzle making and solving, and connects them to the actual physical manifestations of classic puzzles. Building on a concept of puzzles as based on Jungian archetypes, such as the river crossing

image, the path metaphor, and the journey, Danesi suggests this could be one way to understand the public fascination with puzzles. As well as drawing on underlying mental archetypes, the act of solving puzzles also provides an outlet to move beyond biological evolution, and Danesi shows that puzzles could be the product of the same basic neural mechanism that produces language and culture. Finally, Danesi explores how understanding puzzles can be a new way of understanding our human culture. Oedipus Rex Or Oedipus the King: (annotated) (Worldwide Classics) Sophocles 2019-03-13 Oedipus, King of Thebes, sends his brother-in-law, Creon, to ask advice of the oracle at Delphi, concerning a plague ravaging Thebes. Creon returns to report that the plague is the result of religious pollution, since the murderer of their former king, Laius, has never been caught. Oedipus vows to find the murderer and curses him for causing the plague. Oedipus summons the blind prophet Tiresias for help. When Tiresias arrives he claims to know the answers to Oedipus's questions, but refuses to speak, instead telling him to abandon his search. Oedipus is enraged by Tiresias' refusal, and verbally accuses him of complicity in Laius' murder. Outraged, Tiresias tells the king that Oedipus himself is the murderer ("You yourself are the criminal you seek"). Oedipus cannot see how this could be, and concludes that the prophet must have been paid off by Creon in an attempt to undermine him. The two argue vehemently, as Oedipus mocks Tiresias' lack of sight, and Tiresias in turn tells Oedipus that he himself is blind. Eventually Tiresias leaves, muttering darkly that when the murderer is discovered he shall be a native citizen of Thebes, brother and father to his own children, and son and husband to his own mother.

Oedipus Rex/The Rake's Progress Igor Stravinsky 2018-01-01 Stravinsky's genius for the stage is here represented by two very different works. Oedipus Rex (1927) is the fruit of a collaboration with Jean Cocteau, in which the Sophocles tragedy is pared down to make an opera-oratorio of overwhelming impact. Judith Weir analyses how this is achieved: the Latin text has an immediacy which is sometimes even comic, and the vibrant rhythms are reminiscent of the Italian operatic tradition - explored by David Nice in his analysis of the score. The libretto of The Rake's Progress (1951) by W.H. Auden and Chester Kallman is one of the greatest

English opera texts. In a survey of the composition period, Roger Savage examines the contributions of the different collaborators. Contents: The Person of Fate and the Fate of the Person: 'Oedipus Rex', David Nice; 'Oedipus Rex': A Personal View, Judith Weir; On an Oratorio, Jean Cocteau; Oedipus Rex: Libretto by Jean Cocteau, translated into Latin by Jean Danielou; Oedipus Rex: English translation of the narration by e. e. cummings and of the Latin text by Deryck Cooke; Making a Libretto: Three Collaborations over 'The Rake's Progress', Roger Savage; The New and the Classical in 'The Rake's Progress', Brian Trowell; The Rake's Progress: Libretto by W.H. Auden and Chester Kallman

Oedipus Rex Sophocles 2017-06-06 Oedipus the King also known by the Latin title Oedipus Rex, is an Athenian tragedy by Sophocles that was first performed c. 429 BC. It was the second of Sophocles's three Theban plays to be produced, but it comes first in the internal chronology, followed by Oedipus at Colonus and then Antigone. Oedipus Rex chronicles the story of Oedipus, a man who becomes the king of Thebes while in the process unwittingly fulfilling a prophecy that he would murder his father Laius and marry his mother Jocasta. The play is an example of a classic tragedy, noticeably containing an emphasis on how Oedipus's own faults contribute to the tragic hero's downfall, as opposed to having fate be the sole cause. Over the centuries, Oedipus Rex has come to be regarded by many as the Greek tragedy par excellence. Oedipus sent his brother-in-law Creon to ask advice of the oracle at Delphi concerning a plague ravaging Thebes. Creon returns to report that the plague is the result of religious pollution, since the murderer of their former King, Laius, had never been caught. Oedipus vows to find the murderer and curses him for causing the plague. Oedipus summons the blind prophet Tiresias for help. When Tiresias arrives he claims to know the answers to Oedipus's questions, but refuses to speak, instead telling him to abandon his search. Oedipus is enraged by Tiresias' refusal, and verbally accuses him of complicity in Laius' murder. Outraged, Tiresias tells the king that Oedipus himself is the murderer ("You yourself are the criminal you seek"). Oedipus cannot see how this could be, and concludes that the prophet must have been paid off by Creon in an attempt to undermine him. The two argue vehemently, as Oedipus mocks Tiresias' lack of sight, and Tiresias in turn tells Oedipus that he himself is blind. Eventually Tiresias leaves, muttering darkly that when the murderer is discovered he shall be a native citizen of Thebes, brother and father to his own children, and son and husband to his own mother.

Rhetorical Questions Edwin Black 1992-04-15 From classical antiquity through the Renaissance, rhetoric was the prime vehicle of education in the West and the discipline that prepared students for civic life. With a comprehensiveness drawn from this tradition, Edwin Black here probes the incongruities between form and substance that open public discourse to significant interpretation.

Locating rhetorical studies at the confluence of literature and politics, Black focuses on the ideological component of seemingly literary texts and the use of literary devices to advance political advocacy. The essays collected here range in subject matter from

nineteenth-century oratory to New York Times editorials to the rhetoric of Richard Nixon. Unifying the collection are the concerns of secrecy and disclosure, identity, opposition, the scope of argument in public persuasion, and the historical mutability of rhetorical forms.

The Questions of Tragedy Arthur B. Coffin 1991 A selection of essays on tragedy, this volume begins with the premise that any reading of tragedy can be stimulated and enriched by supplementary critical texts which have been selected for precisely those qualities that would enhance one's response to tragedy. The text attempts a reconstruction of the canon of the criticism of tragedy through a critical overview of traditional classical commentary, Russian Formalism, Reader Response Theory, Structuralism, Post-Structuralism, Deconstructionism, and Marxist criticism. Includes selections from the writings of Aristotle, Hegel, Nietzsche, Georg Lukacs, Arthur Miller, Karl Jaspers, Max Sheler, Laurence Michel, Henry Alonzo Myers, Northrop Frye, Albert C. Outler, and others.

Classics in Western Philosophy of Art Noël Carroll 2022-03-01 In this synthetic introduction to the history of the philosophy of art, Noël Carroll elucidates and analyzes selected writings on art by Plato, Aristotle, Hutcheson, Hume, Kant, Hegel, Schopenhauer, Tolstoy, and Bell. Carroll's narrative tracks developments between major positions in philosophy of art, ranging from the idea that art is unavoidably embedded in society to the evolution of the notion that art is autonomous ("art for art's sake"), thereby setting the stage for continuing debates in the philosophy of art. Presupposing no prior background, and useful on its own or accompanying the reading of primary works, Classics in Western Philosophy of Art is ideal as a text for introductory undergraduate and graduate courses in philosophy of art and aesthetics, or for anyone interested in learning about the origin of some of our most fundamental conceptions of art in the Western tradition.

The New Pocket Kobbé's Opera Book Earl Of Harwood 2011-11-30 The New Pocket Kobbe's Complete Opera Book is the world's leading reference work on opera, and (in the words of Bernard Levin) 'no single-volume operatic guide can possibly compare with it'. Kobbe is the only book which summaries the libretti of the world's opera, describes their music and gives a history of their performance within a single volume. But it is a large and relatively expensive book. The new pocket edition, at a price accessible to the huge new audience for opera, has been redesigned and extended, existing entries have been rewritten, and new operas included. The total number of works covered is now over 200, including important new works like John Adams Nixon in China, Harrison Birtwistle's Gawain and Thomas Ades's Powder Her Face, and a number of half-forgotten works that are now undergoing revival. Unlike the previous edition, it is now simply arranged, alphabetically by composer. Lord Harewood's strongly individual commentaries, together with his unparalleled knowledge of and enthusiasm for opera, make the New Pocket Kobbe a book no opera-goer can afford to be without.
